SUMMARY

Software Engineer with 1 year of production experience building and modernizing enterprise applications, with strong programming, OOP, SQL, REST API, testing, and cloud fundamentals. Experienced in large-scale application migration, microfrontend architecture, database-backed systems, and AI-assisted software development. Solved 1,000+ programming problems across competitive programming platforms.

TECHNICAL SKILLS

Languages: C++. JavaScript, TypeScript, Java, SQL
Frontend: Angular, React, Tailwind CSS, HTML/CSS
Backend: Node.js, Express.js, Django, REST APIs
Databases: PostgreSQL, MySQL, MongoDB
AI & Tools: Prompt Engineering, GitHub Copilot, Gemini API, Power BI, Jest, Postman
Cloud & DevOps: Azure, Git, GitHub, CI/CD
Core CS: DSA, OOP, DBMS, OS, System Design

EXPERIENCE

Software Engineer I Sep 2025 – Present
MAQ Software *Hyderabad, India*
Enterprise Legal Management Platform *Angular, React, Jest, Spectator*

- * Delivered an Angular microfrontend migration across 11 MFEs and a shell for a platform serving 35,000+ users across 260+ corporate legal departments.
- * Designed a dependency-driven migration strategy, enabling a 10-member team to migrate 26 React pages and ~500 controls in parallel.
- * Built AI-assisted, spec-driven workflows using GitHub Copilot, reducing task effort from ~10 hours to ~8 hours (~20% improvement).
- * Owned Jest, Spectator automated testing, achieving 100% code coverage across migrated components, services, pipes, guards, and controls.

Enterprise Analytics Application *React, C#, .NET, Fluent UI*

- * Developed and enhanced an enterprise analytics application, delivering client features and resolving application defects.
- * Migrated selected Fluent UI components from v8 to v9, improving UI consistency and functionality.
- * Followed a spec-driven workflow covering requirements, architecture, security, implementation planning, test strategy, and readiness.
- * Automated development and testing workflows using Janus and ePlay, reducing manual effort and improving consistency.
- * Managed end-to-end delivery from Jira task analysis → implementation → automated testing → build → deployment → validation.

PROJECTS

FusionIIIT – Real-Time ERP Notification System Django, PostgreSQL, JavaScript, Semantic UI

- * Developed a real-time notification system across 15+ campus modules, serving 2,000+ students.
- * Optimized PostgreSQL schemas and queries, reducing query latency by 60% under concurrent load.
- * Built reusable Django backend and REST services for seamless integration across multiple modules.

ResumeGenie – AI Resume Builder React, Strapi CMS, MySQL, Gemini API

- * Built a full-stack AI resume platform with REST APIs, JWT authentication, MySQL, real-time editing, and PDF generation.
- * Integrated Gemini API with structured prompt engineering to generate and refine personalized resume summaries.
- * Implemented end-to-end CRUD workflows across frontend, backend, and database layers.

LookGood – E-Commerce Platform React, Node.js, Express.js, MongoDB

- * Built and deployed a full-stack e-commerce application with JWT authentication, REST APIs, MongoDB persistence, cart management, promo codes, and PayPal integration.
- * Designed backend APIs using Node.js and Express.js for product, authentication, cart, and order workflows.
- * Deployed the application on Vercel with Git-based development workflow.

ACHIEVEMENTS

Google Girl Hackathon 2023 – Semi-Finalist, Top 2.5% out of 26,000+ participants nationwide
Competitive Programming – 1,000+ problems solved: LeetCode (1638 rating), Codeforces (957), CodeChef (2★)
GATE 2025 – AIR 6777 in Computer Science & Engineering

EDUCATION

Indian Institute of Information Technology, Jabalpur (IIITDM) Jabalpur, Madhya Pradesh, India
B.Tech in Computer Science | CPI: 7.2/10 *2021 – 2025*
Bhashyam Junior College Guntur, Andhra Pradesh, India
Class XI – XII | Percentage: 96.6% *2019 – 2021*
Dr.K.K.R's Gowtham High School Guntur, Andhra Pradesh, India
Class XI – XII | GPA: 9.8/10% *2018 – 2019*
